What is Process automation and Test Automation?

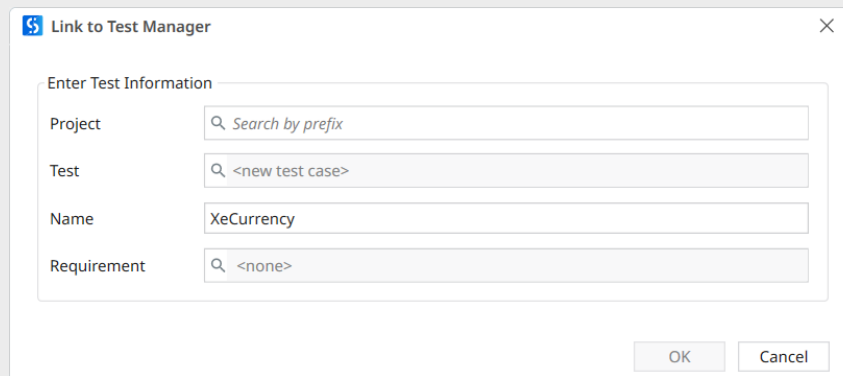

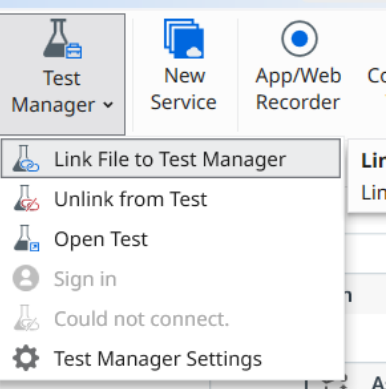

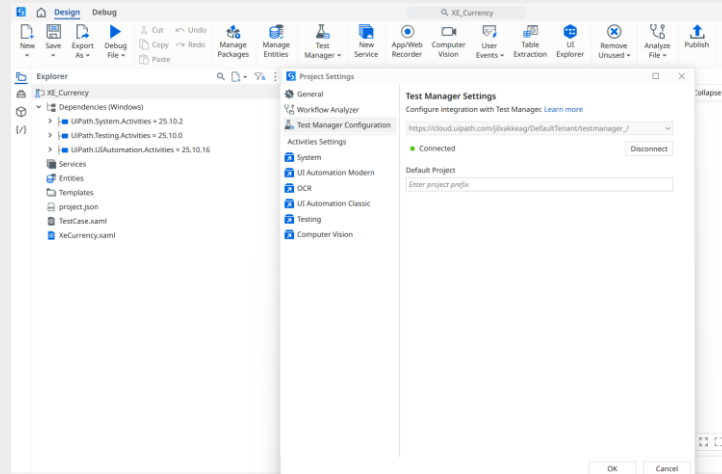

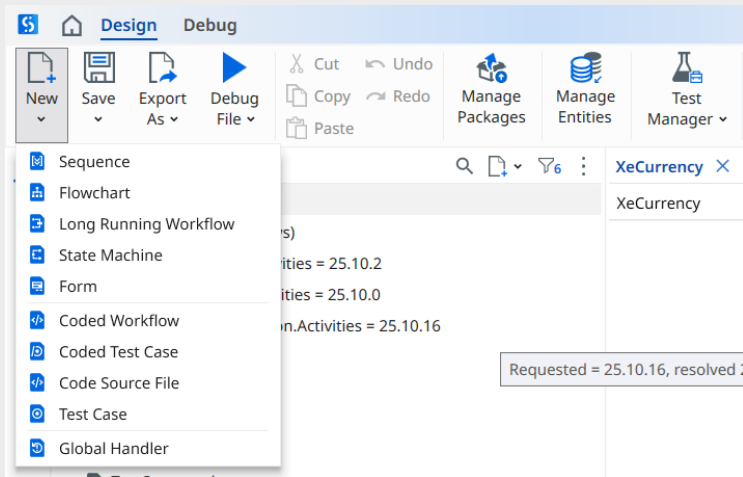

Highlights of Test Automation

- Free Community Edition
- 2 Main Components on Test Automation
 1. Studio
 2. Test Manager

Package of Test Automation

- ▼  Dependencies (Windows)
 -  UiPath.System.Activities = 25.10.2
 -  UiPath.Testing.Activities = 25.10.0
 -  UiPath.UIAutomation.Activities = 25.10.16

UiPath Studio Overview

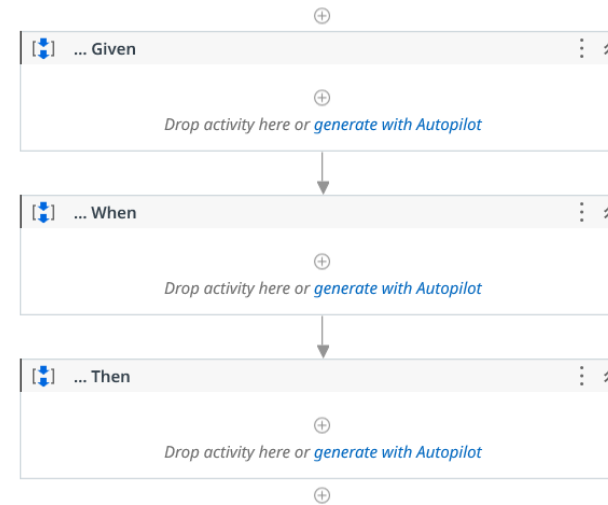

3 Main Blocks

○ Given

○ When

○ Then

Example :

Open UiDemo -> Login to the application

Password(****) & UserName -> Given By User

Login Attempts - Maximum 3 Times

Login Fails after 3 times also -> Close Applicaiton

Login Success ->

ask user no of transacitons

Looop{

Type Some Randome Number for 3 textbox in the Home Page

Get Transcction Number ->

Open a New Notepad

type transaciton number

save it in to the folder -> file name should be transacitonnumber.txt

close notpad

}

Dynamic Selectors

- Selector with Variable
- Wildcard Characters
- Anchor Base

Web Automation

- Set Text
- Click Text
- Attach Browser
- Close Tab
- Open Browser
- Navigate To
- Get Text
- Find Element
- Element Exists
- Get Attribute
- Send Hot Key
- Type Into
- Check
- Select Item

Data Scraping

- Pattern based data
- Web Table
- Screen Scraping

Capability Method	Speed	Accuracy	Background Execution	Extract Text Position	Extract Hidden Text	Support for Citrix
FullText	10/10	100%	yes	no	yes	no
Native	8/10	100%	no	yes	no	no
OCR	3/10	98%	no	yes	no	yes

Use Case

- 1.-> Bot
- -----
- -> Read Smart Search.xlsx
- -> Loop Each item from Smart Search.xlsx
- {
- -> Open Browser
https://www.canada411.ca/ ->
Search Current Item
- -> Scrap Data
- -> Write DataTable to CSV(item)
- -> Close Browser
- ,

Variables & Data Types

1. Should not have Spaces
2. Combination of A-Z,a-z and _ and 0-9
2. Should Starts with A-Z or a-z and _
3. No Keywords (if , for, while,dim,string,int32)
4. no Special Chars Except (_)

Programming

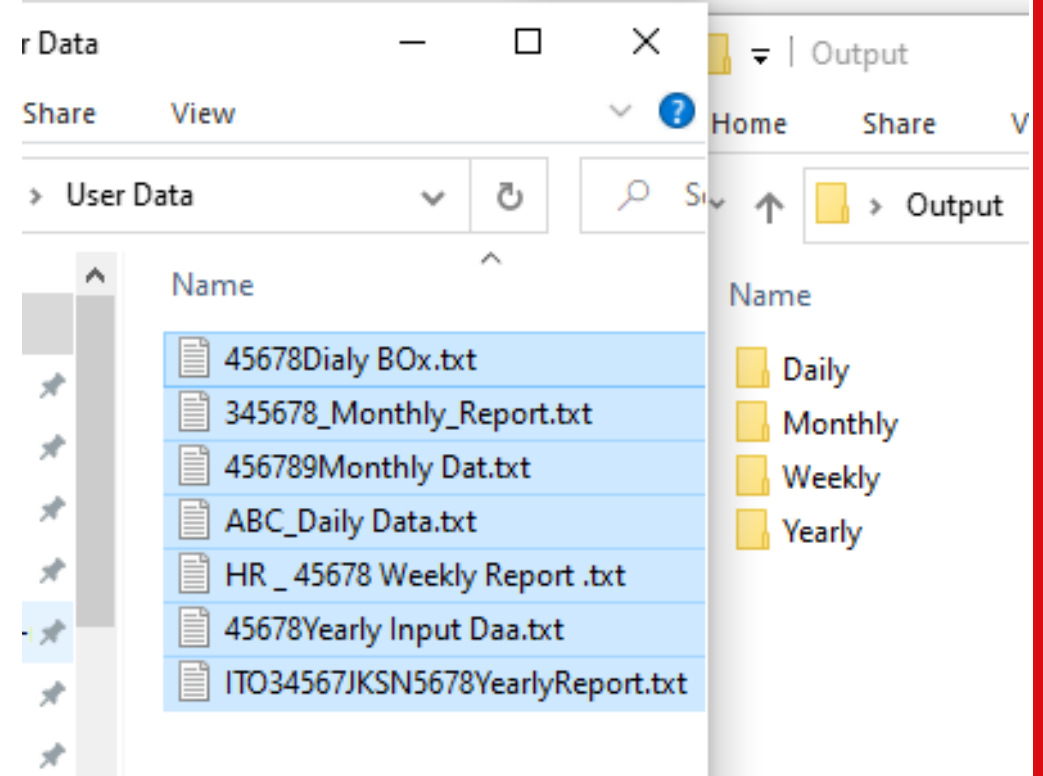

- Dialog Box
- Assign
- Methods
- Strings
- Conditions
 - Single Line If
 - If
 - Decision Flow
 - Switch
 - Flow Switch
- Loops
 - For Each
 - While
 - Do While
 - For Each Row
- List<T>
- Dictionaries
- CType()

String Methods

- Contains()
- EndsWith()
- Equals()
- IndexOf()
- ToLower()
- ToUpper()
- LastIndexOf()
- Length
- Remove()
- Replace()
- Split()
- StartsWith()
- Substring()
- ToCharArray()
- Trim()
- PadLeft/ PadRight

Use Case

- Report Mover
- -----
- 1. Ask User to select the Input Folder
- 2. Ask User to Select output folder
- 3. Loop Each file from the Input Folder
- 4. Check the file name contains weekly
- 5. Check Weekly Folder exists under output folder
 - i. Yes, Move Current File to Weekly Folder
 - ii. No, Create Weekly , Move file to weekly dir
- note: Same thing do it for Weekly/Monthly/Yearly/Daily

Date Time

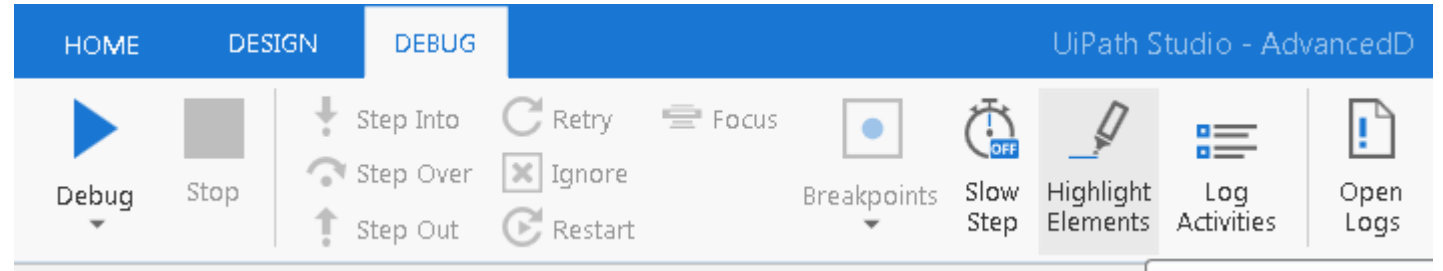

AddDays/Months/Years

Subtract

DayOfWeek

Logging & Debugging

- Annotations
- Comments
- Log Message
- Write Line

Exception Handling

- Try
- Catch
- Finally
- Throw
- Re Throw
- Business Exception
- Application Exception

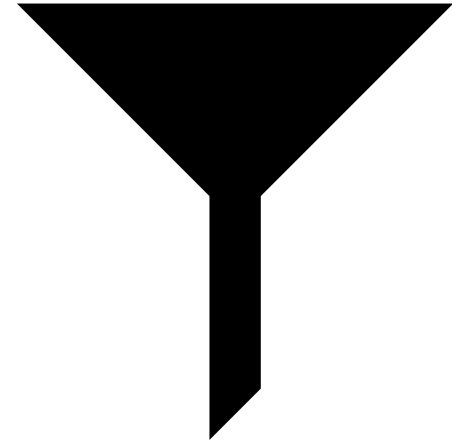

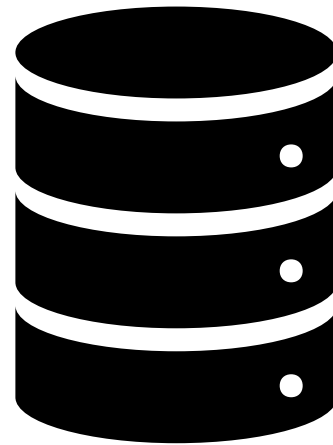

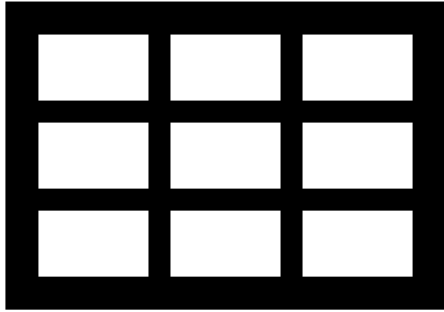

Operating System

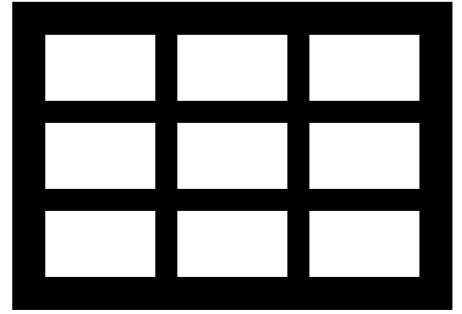

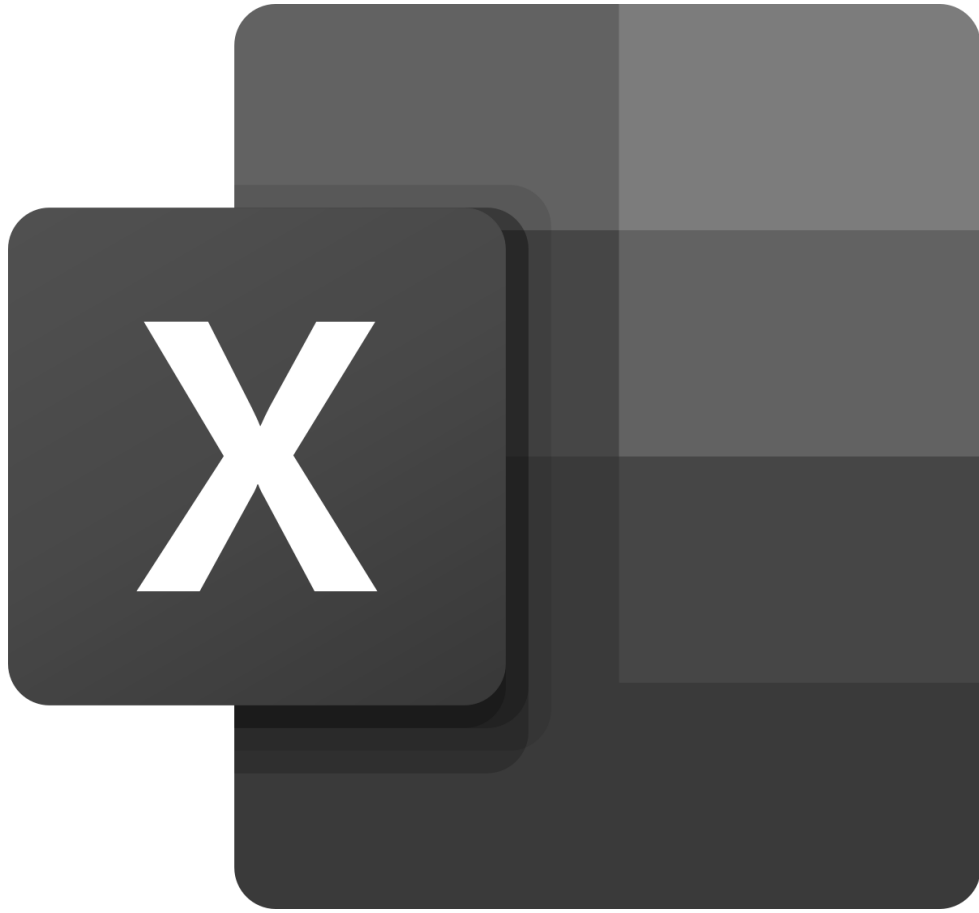

- Files / CSV
- Folders
- Clipboard
- Environment
- Kill/Start/Get Process
- Open/Close Application

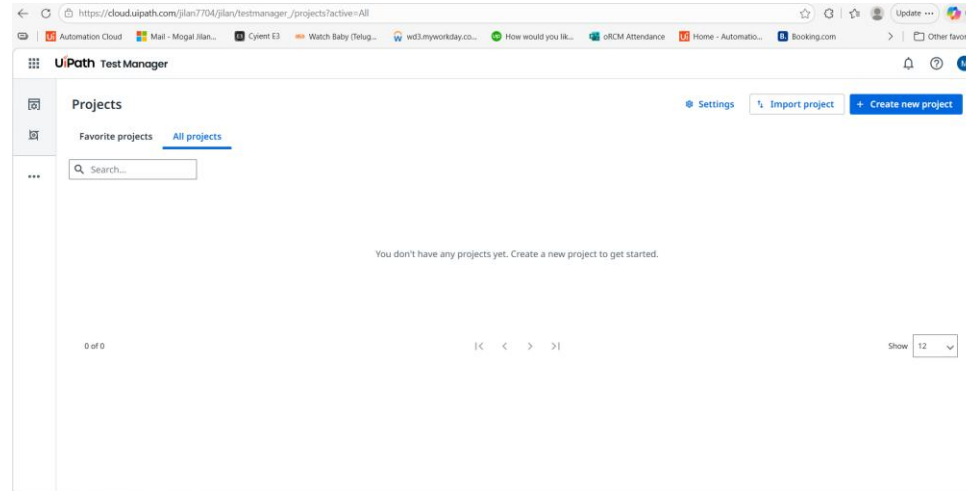

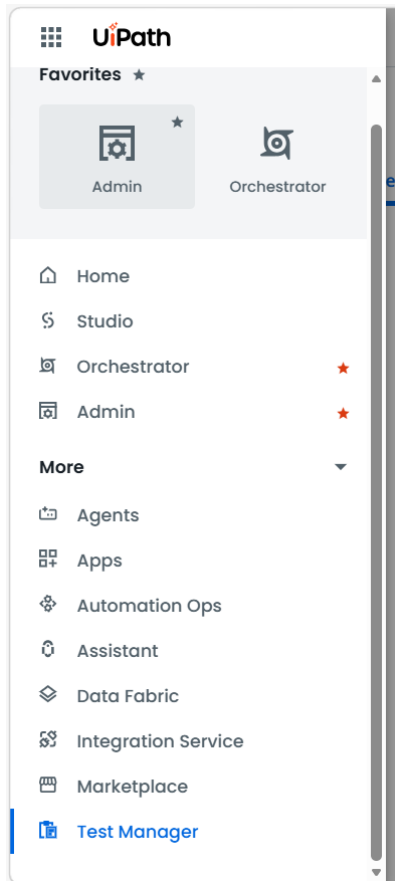

Data Table

Excel Automation

Test Manager

Test Cases and Test Sets in Test Manager

The screenshot shows the UiPath Test Manager interface in a web browser. The address bar displays the URL: `https://cloud.uipath.com/jilan7704/jilan/testmanager_/TESTDEV/dashboard`. The browser's tab bar includes several open tabs such as 'Automation Cloud', 'Mail - Mogal Jilan...', 'Cyient E3', 'Watch Baby (Telug...', 'wd3.myworkday.co...', 'How would you lik...', 'oRCM Attendance', 'Home - Automatio...', and 'Booking.com'.

The application header features the 'UiPath Test Manager' logo and a navigation menu on the left with the following items: 'Dashboard' (selected), 'Requirements', 'Test Cases', 'Test Sets', 'Execution', and 'Project Settings'. The main content area is titled 'Projects > TESTDEV' and includes a 'Project search' input field.

Below the navigation menu, there are tabs for 'Overview' (active) and 'Attachments'. The 'Results Overview' section displays a legend with three categories: 'Failed' (red circle), 'None' (grey circle), and 'Passed' (green circle). To the right of the legend, there is an information icon, the text '(UTC+05:30)', and a dropdown menu currently set to 'Daily'.

The main visualization area is a large empty box with the text 'No results' centered within it. At the bottom of this area, a horizontal timeline shows dates from 'Mar 30th' to 'Apr 11th', with the current date 'Current Apr 12th' indicated at the far right. A search bar at the bottom left of the interface contains the text 'Search with Autopilot' and a small icon.
